

Connect for Cancer Prevention Study

Data Destruction Request

By completing this form you are requesting that the information and samples you have provided to Connect be destroyed to the extent possible.

I understand that by signing electronically below, I am requesting that the Connect for Cancer Prevention Study destroy any information and samples I have already provided to the study.

I understand that this revocation only applies to future disclosures (releases) or actions regarding my personal health information and cannot cancel actions or disclosures that have already taken place. This means that if my information or samples have already been made available for research, Connect cannot get them back. Connect will also let researchers check the results of past studies. If researchers need my old information to do their work, Connect will give it to them. I understand that I will not be able to rejoin Connect after I submit this request.
